Mapefloor Kit Manutenzione

Kit for the maintenance and cleaning of the floors

WHERE TO USE
Mapefloor Maintenance Kit contains products which are essential for carrying out periodic maintenance and cleaning operations of the floors, to guarantee their performance characteristics and attractive appearance.

Some application examples
- Maintenance of resin floors made using **Mapefloor System** inside environments for civil, public and industrial use.

- Maintenance of protective films on decorative floors made using **Ultratop**, including those mixed with **Dynastone Color** or natural aggregates, in environments for civil use such as showrooms, shops and apartments.

TECHNICAL CHARACTERISTICS
Mapefloor Maintenance Kit includes the following:

- **Mapelux Lucida** high-resistance, cross bond metallic wax for protecting floors subject to particularly intense traffic.

- **Mapefloor Wax Remover** multi-action, low-foaming wax-removal detergent for the removal of old wax films, including the cross bond metallic type, such as **Mapelux**.

- **Mapefloor Cleaner ED** concentrated, water-soluble, low-foaming detergent, for routine cleaning operations.

How to use
Please refer to the relative Technical Data Sheet for individual products.

PACKAGING
Mapefloor Maintenance Kit is available in 20 kg kits with the following products:

- N° 2: 5 kg cans of **Mapefloor Cleaner ED**

- N° 1: 5 kg can of **Mapefloor Wax Remover**

- N° 1: 5 kg can of **Mapelux Lucida**

STORAGE
Mapefloor Maintenance Kit can be stored for 12 months in its original packaging at a temperature between +10°C and +30°C. Protect from frost.

SAFETY INSTRUCTIONS FOR PREPARATION AND APPLICATION
Mapelux Lucida and **Mapefloor Cleaner ED**, which are contained in the **Mapefloor Maintenance Kit**, are not considered hazardous according to current norms and guidelines regarding the classification of mixtures.
Mapefloor Wax Remover is corrosive and hazardous if inhaled, swallowed or if it comes into

Mapefloor Kit Manutenzione
